Aspley State High School - Your local Independent Public School of choice

Why Aspley High?

Arts, Cultural and Sport

- We have an inclusive Arts program. Instrumental music, band, specialist lessons in vocal and strings are offered to all students.
- Visual Arts, Drama, Music and Dance are a part of our curriculum and have enrichment programs that run for all students - exhibitions, competitions, Musical.
- We have a specialist Soccer program and are the home of the Aspley Eagles.

Junior Secondary

- Our teachers love teaching in Junior Secondary. Their transition support is exceptional.
- Our Big Brothers and Sisters work with your child from their last days in Primary to the end of their first year at High School.
- Year 7 have their own playground area, their own air-conditioned classrooms for Home Room and have specialist classrooms for Science, Technology and The Arts.

Wellbeing

- We teach our students to adopt a growth mindset to build both their resilience and academic capabilities.
- We have excellent academic and welfare monitoring routines - we watch, we notice, we act, we support and we keep watching.
- Parent/school communication is a priority for all teachers.

Academic

- Extension classes in Core, enrichment activities across the curriculum.
- Consider joining our 'Fire Up' program.
- Aspley Leading Learners.

Personal Development Program

This is an optional program that involves students participating in a range of outdoor experiences and challenges to foster their personal growth and character.

Disciplined Classrooms Where Learning is the Work

- We expect every student to work hard, be open to and act upon feedback and to wear the school uniform with pride.
- We expect our teachers to use world class teaching strategies, to check that students are learning and to provide and seek feedback.
- We expect everyone to work together to ensure we have a disciplined learning climate in our school.
- Students set academic targets and work with their teachers to have daily improvement.
- Teachers know the students, their targets and plan to use the best teaching strategies for improvement. This is routine practice for all of us.

Pathways to the Future

- We offer a strong selection of Academic OP subjects.
- We offer a broad range of Vocational pathways, school based traineeships and apprenticeships.
- All students are expected to graduate with a Queensland Certificate of Education and we structure our school to monitor and support students to achieve that end.
