

QACI is one of three selective entry State High Schools developing highly capable young people on their preferred academic pathways.

At QACI, students study the rigorous International Baccalaureate (IB) Diploma Program which incorporates their creative pathway, develops university research skills and enables opportunities for real life industry experience.

QACI announces **new complementary Discovery Workshops** to help students in **Years 8 and 9** explore their potential across the International Baccalaureate curriculum.

There are **no knowledge or experience prerequisites** that apply to Discovery Workshops. Designed using a cooperative approach that merges elements from different subjects these hands-on workshops provide opportunities for **lateral, collaborative, and creative thinking** in fun and engaging ways with our world-class educators.

Current Years 8 and 9 students can actively engage in one, two or three **complementary** individual sessions during the entire day on the 25th February 2017.

61 Musk Avenue Kelvin Grove

Discovery Workshops

Session 1

Session 2
