

Tuesday, April 4

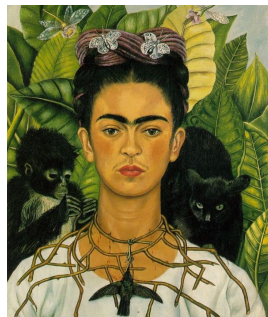

Van Gogh's Room Vincent was an expressionist who painted with a great deal of emotion, energy and colour. One of his best-loved works is The bedroom. We will learn to paint our own frame able bedroom like him using bold strokes and energetic lines. We will also experiment with his techniques & create his portrait in pastels.

Wednesday, April 5

Wonderful Watercolours blend with sharpie markers to explore colour relationships in the Kandinsky style! We will then frame our masterpiece. We will discuss Kandinsky's love of hue combinations and use our new found knowledge to create a hand portrait filled with colourful contours.

Thursday April 6

Frida's Face Frida Kahlo was considered one of the most famous artists in Mexico because she overcame pain and terrible misfortune to do something she loved. We will produce a self portrait based on her style using bold colours and symbolism. We will frame our portrait and create candy skull selfie props influenced by Mexican symbolism.
