Case Studies

Rachael is from Aspley State School. She started learning Mandarin with us when she was in grade four. After she entered a private High School, she was put into the advanced Mandarin class immediately and got "A" for Mandarin. She is now very comfortable and confident with school work and exams (including speaking, writing, reading and listening).

Naomi moved to a high school at grade nine. She was in a Japanese class where other students have learnt Japanese for 8 years. Naomi took a private lesson with us and after only 6 month she became the top of the class.

Grace, Lola and Fox are attending our young adult Japanese class. They found our small class very helpful and enable them to get A for their Japanese exams. They are now preparing for the Japanese-Language Proficiency Test (JLPT). After they pass the JLPT level 5, they will get two bonus points for their year 12 OP score.
