Welcome to 2018 once again, I am thrilled to have the opportunity to work with the lovely children of Aspley school and I am passionate about providing an enriching art experience for them in 2018 ! **But why is Art important** in the holistic development of our precious and impressionable children...

1) Art Generates a Love of Learning & Creativity. Art develops a willingness to explore what has not existed before. Art teaches risk taking, learning from one's mistakes, and being open to other possibilities. Kids who are creative are also curious and passionate about knowing more.

2) Art Develops the Whole Brain. Art strengthens focus and increases attention, develops hand-eye coordination, requires practice and strategic thinking, and involves interacting with the material world through different tools and art mediums.

3) Art Prepares Kids for the Future. Creative, open-minded people are highly desired in all career paths. Art and creative education increases the future quality of the local and global community. Being creative is a lifelong skill and can be used in everyday situations.

4) Art Teaches Problem Solving. Making art teaches that there is more than one solution to the same problem. Art challenges our beliefs and encourages open-ended thinking that creates an environment of questions rather than answers.

5) Art Supports Emotional Intelligence. Art supports the expression of complex feelings that help kids feel better about them selves and helps them understand others by "seeing" what they have expressed and created. Art supports personal meaning in life, discovering joy on ones own self, often being surprised, and then eliciting it in others.
