

## The Bullying guide to stop bullying for Parents and Kids by Shiv Edwards in 4G

Have you ever got bullied?, Well, at least 90 percent of children and parents get bullied by others, and the other 10 percent aren't or are bullies. The ten percent aren't bullied because they don't have friends.

Do you want to know why bullies are bullies? This may not be true but I heard that they are because someone else bullied them that then makes them want to hurt other innocent people to know what they felt when they did get bullied. Here's a question for you, what would you do if you or someone else was bullied? A: Help them, B: Tell the person who's bullying to stop or C: just be cool with it and walk away like nothing is happening?. Answer: B and A because you are helping the person being bullied in one or two ways.

To stop a harasser, first you have ask them nicely, but if they don't listen, you have to ignore them, but if they still not listening ask them firmly you hear me, firmly to stop, then if they still not listen prepare yourself because you are going to ask an Adult or a Teacher to make them stop.
