

# A TICKET TO EXPLORE THE INNOVATIVE WORLD OF ROBOTICS!

Aspley  
Wed 3:10-5:00pm  
Ages 6yrs +  
Beginners Robotics  
Commencing  
24<sup>th</sup> July 2019  
\$150/term3

Build Your Tomorrow. Today!

The program objective is to introduce the students to theoretical and practical aspects of the fields of Technology, Software Engineering, Math and Entrepreneurship.

RoboLEGO uses LEGO® WeDo graphic programming. During each lesson, students build a robot using LEGO® parts and program it according to the required functionality and use rhetorical and algorithmic methods to create a successful presentation project.
