THE BENEFITS OF CHESS

Chess has long been regarded as a game that can have beneficial effects on learning development, especially when it is played from a young age. Give your child a head start in life by learning chess in a fun, interactive and supportive environment!

- ❖ Children develop analytical, synthetic and decision-making skills, which can transfer to real life.
- ❖ Children learn to engage in deep and thorough chess research, which will help them build their confidence in their ability to do academic research.
- ❖ Chess can help children gain insights into the nature of competition, which will help them in any competitive endeavor.
- ❖ When youngsters play chess they must call upon higher-order thinking skills, analyse actions and consequences, and visualise future possibilities.

MOST IMPORTANTLY CHESS IS FUN!!!
