WHAT DO OUR CUSTOMERS LOVE ABOUT US?

" I am very happy with how well B's lessons are going. It is so exciting and heartwarming for me to see B – who has so many difficulties in most other aspects of his life – really take to coding and feel good about himself and what he is learning.

- Deborah

" Coding has given B self-confidence and a sense of purpose.

His teacher comes to him now for help with technology issues in the classroom and he loves helping his friends. Coding lessons are the highlight of B's week.

- Shona

WHAT OUR KIDS LOVE

- "Learning how to code with my friends" - Miss G
- "The teachers" - Mr. H
- "EVERYTHING!" - Mr. J
